

Save the Date for a... One Vegetable One Community Workshop!

January 26th, 2017 in Thief River Falls

Join University of Minnesota Extension for a workshop about *One Vegetable One Community*, a campaign that engages the entire community in the growing of one featured vegetable. The goal is for community members to come together while growing together.

This workshop is intended for residents, organizations, and businesses who share the goal of enhancing Minnesota communities through access to healthy food, building relationships, and helping to make our communities a better place to live and visit.

The *One Vegetable One Community* Workshop will include:

- Ideas for community involvement
- Gardening tips
- Examples of *One Vegetable One Community* campaigns
- Introduction of a toolkit and other resources to support the campaign in your community
- Time for participants to discuss their vision and ideas for *One Vegetable One Community*

Take a look at the *One Vegetable One Community* campaign in Duluth to see an example of how communities can come together through gardening:
