## DO YOU LIVE IN MARSHALL COUNTY AND NEED HELP PAYING FOR CHILD CARE?

- The **Child Care Assistance Program (CCAP)** helps parents pay for child care while they go to work, look for work or attend school.
- CCAP assists families with children from newborn through age 12 and through age 14 for children with special needs.
- Family size, family income, and participation in authorized activities are used in determining eligibility.

### Do You Qualify?

Family Size (adults & children)	Maximum Annual Income Effective October 5, 2020
2	\$34,745
3	\$42,920
4	\$51,095
5	\$59,270
6	\$67,445

- Parents choose their own provider, one who will accept CCAP. A provider can be a child care center, family-based care, friend, family member or neighbor.
- Your provider does not need to live in Marshall County.
- Provider must be 18 years old and, if not licensed, be county approved before CCAP will pay. This helps make sure your child will be safe.
